WHEREAS the Zoning Board of Appeals held a public hearing on July 16, 1969 after proper notice at which approximately ten residents appeared and voiced concern about the rezoning of this old abandoned school building into an office building for two or three tenants for general office use and this matter was tabled. On-site inspection revealed a run-down, boarded up building with high grass around it; several businesses similar to one requested around it; an already heavily travelled street, a main artery to Amherst; any additional cars brought in by this business would be nominal. The Zoning Board, however, suggests that only 230 of the 419 foot depth of the parcel be rezoned to prevent any additional business buildings to be erected and to allow for an adequate buffer zone. This building is set back sufficiently to allow for any possible highway widening. The Zoning Board feels this rezoning would be an asset to the area and recommends same, NOW, THEREFORE,

BE IT RESOLVED that the above property be and it hereby is rezoned from Residential to Business, and be it

FURTHER RESOLVED that the zoning map in the Town Clerk's Office be changed accordingly.
