Replacement of these lights will be done as Erie County widens and straightens Losson Road. There are no street lights proposed for the new portion of Losson Road which eliminates the old railroad overpass about 3500 feet of new right of way, nor will there be any overhead lines built in that area. It is NYSEG's understanding that there is a subdivision (Losson Green Estates) proposed that will subdivide both sides of New Losson Road, thus the PSC rule which mandates underground electric service in subdivisions having four or more lots, will apply. If the Town of Cheektowaga wants to light the 3500 feet of the new road, it will have to be done with underground conductors or the Town has the option of petitioning the PSC to allow NYSEG to install overhead facilities along this new road.

TOWN OF CHEEKTOWAGA

RE: Miscellaneous Change Orders
on the Scajaquada Creek
Structure Replacement Project

Gentlemen:

The attached resolution is submitted for your approval of numerous Change Orders against various bridges and box culverts on the subject project.

Structure Replacement Project - Change Order #1 - No Cost

This Change Order is a request for an extension of time to complete all work in the base contract and all related Change Order work which has been added to the contract. This Change Order will extend the completion date from December 1, 1980 to May 31, 1981. There will be no additional cost to the owner. The only major item to be completed is landscaping and deck coating on Park Edge and Rosewood covered by Change Orders requiring four (4) consecutive days of a minimum of 50° temperature before starting; virtually impossible to anticipate this time of year.

All structures are open to traffic and will continue to be open while any of the remaining work is being performed.

Box Culverts - Change Order #2, Chapel Avenue - Add \$792.00

This Change Order was to furnish and install a 2-inch galvanized pipe rail at the four (4) corners of the box culvert to guide the residents onto the bridge sidewalk and safely across the structure.

Change Order #1, Broad Street - Add \$193.00

This change is similar to the Chapel Avenue change but only one (1) corner of the structure required posts and railings.

TO THE SUPERVISOR AND
HONORABLE TOWN BOARD MEMBERS

November 13, 1980
Page 2

Bridges - Change Order #3, Rosewood Bridge - Add \$878.00

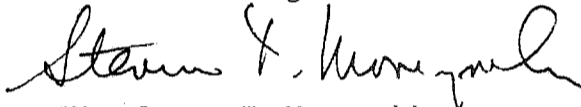

This Change Order was to furnish and install additional 2-inch galvanized pipe rail at the southwest corner of the bridge to make it continuous to the structure rail. The additional rail was requested by residents inasmuch as a blind man frequents use of the bridge. This would provide a continuous guide for him as well as many of the elderly people using this bridge to go to church.

A complete scope of the work covered by these Change Orders, justification, and costs is included with each Change Order and is on file in the Engineering Department.

Very truly yours,

RE: Cedargrove Heights
Drainage Project
Change Order No. 3 (Final)

Gentlemen:

The attached resolution is submitted for your approval of Change Order No. 3 on the Cedargrove Heights Drainage Project, Phase I, Stage A, under the contract with Destro Brothers Concrete Company, Inc.

Change Order No. 3 - Add \$15,876.10

In the reconstruction of Cedargrove Circle and Windwood Court and the installation of new gutter curbs, it was evident that many sidewalks and driveway approaches had to be regraded to improve the slope for safe egress and ingress of residents and vehicles. These changes were ordered by the Field Engineer on the site.

All charges were calculated on unit bid prices as submitted in the Bid Proposal. The cost breakdown of each item is on file in the Engineering Department.

Very truly yours,

MEMORANDUM

TO: Councilman Thomas Johnson
FROM: Stuart Alexander
DATE: November 11, 1980
RE: Cost Control CDBG Funds

The Town's recent venture into "Metro City" status for CDBG Funds will result in certain administrative and regulatory responsibilities for the Town which currently they are not organized to monitor and control. One such area of responsibility is in the arena of cost control on CDBG contracts, projects and invoices.

To facilitate better and more efficient control in this area, I am recommending the following procedures be required prior to honoring CDBG contract expenditures.

- I a. Resolutions authorizing contract expenditures from CDBG funds be substantiated as to "fund availability" by account number and fiscal year. Said Resolutions will state in a "Whereas Clause" that required procedures have been followed and fund availability has been substantiated.

Substantiation of "Fund Availability" to be certified through initialed signature by two of the following persons:

- William Wielinski
- Jerome Gabryszak

A stamp with these two names and a place for signatures will be impressed on the original document requesting the use of CDBG funds. Said stamp will also provide space for noting Project Account number, budget line and fiscal year.

- b. Department Heads who supervise CDBG contracts will prepare an estimate of anticipated EXTRAS (see: Item #IV); said extra charges will be programmed against the appropriate CDBG budget line.
- II Invoice draws against approved CDBG contracts will be verified for work performed, prior to payment, by:

- Supervising Department Head
- Supervising Consultant
- Jerome Gabryszak
- William Wielinski

A separate cover sheet will accompany the invoice document and provide space for necessary signatures.

- III Change orders for approved CDBG contracts will be verified for "fund availability" prior to authorizing change order - either field or design change orders - in similar procedure as recommended in Step 1a.
- IV a. Expenditures from CDBG accounts that do not require contract change orders (ie: overtime pay; miscellaneous equipment costs, administrative changes, etc.) will be drawn from Estimate of Anticipated Extras (see: 1b.).
- Over expenditure from the Estimate of Anticipated Extras will not be approved prior to substantiation of Fund Availability (see: Step 1a.).
- V Additional design fees for a capital improvement project beyond approved contract fee will be individually approved. Additional fees will be reviewed on the basis of reason for additional fees. Approved capital improvement change orders will not automatically warrant additional design fees. Changes in design fees will be approved and authorized by the Department Head and the following:
- Jerome Gabryszak
 - Stuart Alexander
- VI a. CDBG design fees will be limited to a 10% upset fee of estimated project cost. Said upset fee to be reviewed annually.
- b. Additional technical fees to be paid from CDBG funds will be submitted with an upset cost.
- VII Any CDBG changes beyond contract approved amounts submitted for payment prior to receiving authorization to incur costs may not be honored.
- VIII Contract documents prepared using CDBG funds as a source of payment will state in a contract clause the requirements for approval of additional contract costs.
- Said contract clause will further state that contractors who perform services or incur costs above the approved amount and without approved authorization (see: Step III) will do so without liability by the Town or CDBG program funds.
